

**THE  
MISSING  
LINK**

**NO NATIONALITY**

# *Web of Destiny*

## ORDER OF MOORISH HISTORY & SCIENCE

### THE IMPORTANCE OF KNOWING YOUR TRUE NATIONALITY

1. What every so-called African-American, or Black-American Parent and child should know, that is to say; who you are, meaning your correct name, what you are, meaning your true Nationality, where you are, meaning the land in which you live.
2. Why continue to be an economic and social slave by the lack of the true knowledge of self.
3. Let us observe the chain diagram on the cover of this flyer, here we see there is a missing link in the chain, which is specifically relating to the so-called African Americans. ( No nationality )
4. Did you ever stop and think that the so-called African Americans do not have his or her own true nationality? Did you know that so-called African Americans cannot link or identify themselves with other civilized nations around the world because of the lack of self knowledge.
5. The European educators have lied to you about who you really are. They also reinforce this lie by telling you they brought you here from Africa. This is what history says, right? This is 'His Story' and not yours, remember this!
6. The term African American or Black American is not a nationality! The rules of English grammar states that a noun is the description of a person, place, or thing. An adjective is a description of the thing but, not the thing itself. African American or Black American is an adjective. At law in regards to your status; being labeled an adjective makes you property or a second class 14<sup>th</sup> amendment citizen.
7. Having and knowing your true nationality is the master key that unlocks the doors to freedom, justice and equality. Who are you?
8. Come let us at the Web of Destiny explain to you the truth of this subject Matter. We invite you to attend our weekly meetings on Wednesday night.
